

First Semester 2026-27

Course Handout Part II

Date: 4 August 2026

In addition to part I (General Handout for all courses appended to the Timetable), this portion gives further specific details regarding the course.

Course Number	: MPBA G504
Course Title	: Managing People & Organization
Instructor-in-charge	: Dr. Jayashree Mahesh
Team of Instructors	: NA

- 1. Course description:** The course studies human behavior in organizations at three levels: individual, group, and organizational systems. It examines variables and key concepts related to individual attitudes, motivation, and leadership, along with group dynamics, organizational structure, and change management, while also covering the strategic role of HRM in attracting, developing, motivating, and retaining talent through recruitment and selection, training and development, performance management, employee engagement, compensation, and talent management.
- 2. Scope and Objective:** In the contemporary time, organizations across the world are facing economic and social consequences of global economic pressures and globalization. Under such scenario, they encounter many challenges and get various opportunities as well. Moreover, management of these challenges and opportunities has become crucial which essentially relies on an understanding of human behavior. The success of any organization in today's dynamic and volatile business environment is dependent upon the motivation and commitment of its employees. It is in this context the significance of organizational behavior comes into play. As people from diverse backgrounds and with different cultural values have to work together in the global economy, the study of organizational behavior assumes greater importance and relevance. This course focuses on the fundamental theories of behavior in organizations and managing employees in organizations with the objective of equipping students with the necessary concepts, tools, and techniques for understanding behavior in organizations, this course attempts to unfold human behavior at three levels (the individual, the group, and the organization). This course involves active learning and develops students' foundation against which the competencies required to create a successful organization can be built and developed.
- 3. Course learning outcomes:** By the end of the course the students are expected to:
 - CLO1.** Comprehend the fundamental concepts in organizational behavior and human resource management and the tight coupling between them
 - CLO2.** Apply concepts of organization behavior to their everyday workplace context
 - CLO3.** Apply frameworks for managing talent at their workplace
 - CLO4.** Comprehend the pros and cons of different organizational structures and apply them, as needed at their workplace.

- **CLO5.**Comprehend the importance of organizational culture and change management strategies
