

COURSE HANDOUT

In addition to Part I (General Handout for all courses appended to the Time Table), this portion gives further specific details regarding the course.

Course No.: MPBA G529

Course Title: Marketing Research & Metrics

Instructors: ANIL BHAT

Course Description:

All organizations need to research their markets periodically and employ various elements of marketing research process viz. problem definition, development of an approach to the problem, research design formulation, fieldwork & data collection, data preparation & analysis and finally report preparation and presentation.

The emphasis of the course is proportionately focused on foundational concepts, methodology & techniques, and marketing research applications. A number of cases will be assigned for discussion in the class. The course pedagogy lays special emphasis on “*learning by doing*” and a project assignment in this course characterizes this orientation.

1. Scope and Objective of the Course:

To impart necessary foundational concepts, methodologies and tools/techniques for role of a market researcher. That role envisages generation of actionable, reliable and accurate information to identify various marketing problems viz. demand forecasting, segmentation, targeting, positioning, new product development etc. and find their effective solutions.

2. Text Book: Malhotra, N. K., & Dash, S. (2019). *Marketing research: An applied orientation*. Pearson. (7th revised edition)

3. Reference Text Book: Mark Jeffery “*Data Driven Marketing*” Wiley India

4. Reference journals: Journal of Marketing Research, Journal of consumer research, Journal of advertising research, Marketing Science

5. Course Plan:

BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE, Pilani
Pilani Campus
AUGS/ AGSR Division

Module	Lecture Session	Reference	Learning Outcomes
I	Definition of marketing research, marketing research process.	Ch1	To Explain the nature and scope of marketing research
	Defining the market research problem and developing an approach to the problem.	Ch.2	To understand the importance of and process used for defining the marketing research problem
	Research designs , classification of various research designs, ethical and special considerations in international M.R	Ch.3	To understand the difference among basic research designs; exploratory, descriptive and causal and their application.
	Distinction between primary and secondary data , criteria for evaluating secondary data, use of internet in identifying and analyzing secondary data	Ch.4	To explain the nature and scope of secondary data
II	Classification of qualitative research ; focus group, depth interviews and projective techniques.	Ch.5	To explain the difference between quantitative and qualitative research in context of exploratory research design.
	Classification and comparative evaluation of survey methods . Description of major observation methods .	Ch.6	To understand survey and observation methods in context of descriptive research
III	Conditions of causality , role of validity in experimentation, classification of experimental designs , test marketing	Ch.7	To explain causality, reliability and validity issues, and various experimental designs in context of causal research design.
	Measurement and scaling procedures , nominal, ordinal, interval, ratio. description of comparative and non-comparative scaling tech	Ch.8	Introduce concepts of measurement and scaling : Comparative scaling
	Non-comparative techniques ; continuous and itemized rating scales; Likert, semantic differential and staple scale	Ch.9	Explain non-comparative techniques
IV	Purpose, objectives and steps involved in designing	Ch.10	To explain the purpose, process of designing the questionnaire and

	questionnaire.		design.
	Sampling design process; sampling frame, determination of sample size, classification of sampling techniques.	Ch.11	Explain sampling ; design and procedure

BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE, Pilani
Pilani Campus
AUGS/ AGSR Division

	Nature of field-work and data-collection process	Ch.13	Field work
	Coding , transcribing and data cleaning	Ch.14	Data preparation
V	Tests of association and tests of difference	Ch.15	Hypothesis testing
	One-way analysis of variance , interpretation of results	Ch.16	Analysis of variance
	Introduction to regression analysis , assumptions, regression coefficients, significance testing, two-group discriminant analysis .	Ch.17 & Ch.18	Correlation and regression/Discriminant Analysis
	Concept and exposition of factor model	Ch.19	Factor Analysis
	Distance measures, hierarchical clustering algorithms.	Ch.20	Cluster Analysis
	MDS and conjoint analysis as techniques for analyzing consumer perceptions and preferences	Ch.21	Multidimensional Analysis and Conjoint Analysis
VI	Report preparation, report writing and presentation	Ch.22	Report preparation and presentation
VI	Marketing Metrics		For measuring Marketing Performance fifteen key metrics will be discussed.viz: Classical marketing metrics, Essential financial metrics & New Age marketing metrics.

6. Evaluation Scheme

S. No.	Component	Weightage	Tentative dates	Nature of Component
2.	Midterm	20%	7/10/26	OB
3.	M.R Project[3+5+12=20]	20%		Group
4.	Cases [4x5=20]	20%		Group [Presence during case discussion is mandatory]
5.	Surprise quizzes/Term Papers/ Journal Papers Assignment	10%		Individual
6.	Comprehensive Examination	30%	10/12/26	CB

Note

- | Each student as part of her/his group will be taking up a marketing research **project**.
- | For cases you have to be present in the class for you to be evaluated for the scheduled case.
- | The progress in the marketing research project will be continuously monitored and evaluated. A written report of the same will have to be finally submitted to the instructor and also presented before the class.
- â **Highest level of intellectual integrity is expected of students while they work on term papers/projects in terms of giving proper acknowledgement and avoiding plagiarism.**
- â Students are also expected to submit their assignments on time failing which these may not be evaluated.

7. Consultation Hour: Thursdays 5-6 pm

8. Notices: Management Department Notice Board / Nalanda /Email

9. Make-up Policy: No make-ups will be given except only on genuine medical grounds and **only with prior permission** from Instructor-in-charge.
