

BIRLA INSTITUTE OF TECHNOLOGY & SCIENCE, PILANI
(PILANI CAMPUS)
ACADEMIC UNDERGRADUATE STUDIES DIVISION

First Semester 2026-2027
Course Handout (PART-II)

Date: 2/08/2026

In addition to part I (General handout for all courses appended to the timetable) this portion gives further details regarding the course.

Course No. : *PHY U110*

Course Title: *Physics Laboratory*

Instructor In-charge: *Debashis Bandyopadhyay*

Instructors Name:

Debi Datt Pant, Neha Kukreti, Rachit Kumar, Aritra Banerjee, Hemant Kumar, Kanchan, Anshuman Dalvi, Kamaldeep Bisht, Shweta Choudhary, Sayan das, Arpita Mishra, Kaushar Vaidya, Anamika Sharma, Manisha Lamba, Subhashis Gangopadhyay, Pragya Chaudhary, Manas Kumar, Madhukar Mishra, Ujjwal Jyoti Nath, Shaini Verma, Ankur Chhabra, Jyoti, Sajal Mukherjee, Renu Parashar, Prabin Pyakurel Sharma, Jayendra Nath Bandyopadhyay, Bhariti Dual, Mayuri Dikshit, Ranjan Kumar, Ritu, Biswanath Layek, Devendra Saini, Chennai Kaki, Jyoti, Reetik Jangir, Sandipan Dutta, Arti Sanini, Garima, Rakesh Choubisa, Rahul Sheldon Pinto, Chavan Pankaj Sharad

1. Aims and learning objective:

The main aim is to expose the students to experimental methods of physics and to integrate theoretical knowledge and concept to practical experience. Students will learn, operation of scientific equipment for collecting data and the analysis of collected data using computer.

2. Text Book:

Laboratory manual written by the faculty members of physics department is available in physics department web page and also will be uploaded on Nalanda.

Reference: Relevant reference materials are specified in the lab manuals.

3. Evaluation Scheme:

Evaluation components	Duration	Weightage (%)	Marks	Day, Time and Venue
Day-To-Day Performance	Normal Class hours	50	100	Regular Lab Hour
Comprehensive Examination (written)	2 hours	30	60	****
Comprehensive Laboratory Test	1 hour	20	40	To be announced
Total			200	

Please Do Not Print Unless Necessary

ACADEMIC UNDERGRADUATE STUDIES DIVISION

4. Important Instructions to the students:

- Day to day performance would carry **10** marks for each experiment. Error Analysis will carry 20 marks (absolute).
- For any result, if you have to draw a straight line, it should be the best fit line as per the discussion in the lecture class. We will arrange the lecture class for **Error Analysis** and will announce it accordingly.
- We will take the best ($N-1$) experiments (where N is the total number of experiments performed by a particular Section during the semester) while doing the evaluation at the end of the semester. Total marks for day to day performance would be scaled to 80 marks (Additional 20 for Error analysis which is not included in scaled up/down).
- Students would perform **1 experiment per turn** and submit the calculations and the results on the next turn in the prescribed "observation booklet". They need to keep their observation booklet on the instructor's desk, before they start next experiment.
- Students are expected to read about the allotted experiments from the manuals before coming to the Lab and should carry the hard copy of the observation booklet (record) with them.
- Students are expected to maintain laboratory discipline during the lab hour. They can be penalized for any indiscipline in the lab.

5. Responsibilities of the students:

- To carry his/her valid identity card issued by the institute.
- To sign attendance sheet.
- To arrive at the laboratory in time.
- To get at least one reading in the observation table verified and attested by the instructors.
- To understand and strictly follow the safety precautions.
- To complete the experiment on time.
- Do not indulge in any unfair means in the evaluation component. Institute has very strict policy on plagiarism. If it is observed that the readings and results are copied from any other sources, due penalty will be awarded after following process.

6. Make-up policy:

The schedule of the experiment is very tight; the students are expected to attend all the laboratory sessions regularly. Make up, if any, will be decided after the consultation with the lab instructor and the genuineness of the missing purpose. No makeup would be granted during the regular lab hours. Makeup will be granted at the end of the semester based on the recommendation of the respective instructor.

6. Notices:

Notices concerning this course will be displayed on Physics Dept. notice board and NALANDA web site.
